

Ivan Coetzer
 Drilling Expert

**SUCCESS
 GUARANTEED**

Ivan will apply the correct drilling technique required for each borehole - be it rotary mud, percussion (hammer) or Odex (boulders). Our versatile "Crawler" rig can go anywhere while our "Spider" rig can easily reach depths of 240m.

- BOREHOLE DRILLING
- PUMP INSTALLATION
- WATER STORAGE
- WATER FILTRATION
- MAINTENANCE & SERVICING
- IRRIGATION
- BOOSTER PUMPS

OUR OFFER INCLUDES:

Complete borehole installation, borehole pump, 2200L water tank, booster pump, float switch and automated control box.

85% of our borehole installations cost only

R57 500 ex Vat

for mud drilling within 60m

When we have to drill through bedrock (up to 75m), our full installation costs R77 500 (ex VAT). For very rare spots where we have to drill beyond 75m, the cost is R97 500 (ex Vat).
